

**FOUNDATION™ fieldbus  
IP67 junction box, 6-channel  
JBBS-49-T615B/EX**

The 6-channel Ex-junction module JBBS-49-T615B/EX is designed for FOUNDATION™ fieldbus systems.

The housing is made of robust die-cast aluminium and features protection degree IP67.

The junction box is equipped with a selectable bus terminating resistor. The according switch is integrated in the housing on the board.

To avoid condensation build-up in the hou-

sing, the devices are equipped with a condensate drain.

The shield is capacitively coupled to the housing potential. A switch for direct coupling of the shield and housing is implemented.

**Attention:** Sufficient equipotential bonding of the installation must be ensured. The device is connected via the bolt of the housing to the system's potentializer.

- **Entity and FISCO compliant according to IEC TS 60079-27**
- **junction module for wall mounting with PVC cable glands M20 x 1.5**
- **powder-coated die-cast aluminium housing**
- **pressure compensation element for protection against condensation water**
- **connection of the housing potential via an M5 x 1 bolt**
- **For Ex applications: -25...+70 °C (-13...+158 °F); for non-Ex applications: -40...+70 °C (-40...+70.00 °C)**
- **integrated terminating resistor (switch-in)**
- **cable shielding: capacitive or direct connection to housing potential selectable via switch**
- **isolated support terminal for optional protective conductor incorporated in cable**
