

## Datasheet

**BZP Steel Hexagon Socket Button Head Screws: Metric Thread** 

**RS Product No: 8229192** 

Button Head Socket Screws are designed for light duty with a similar thread design as a Socket Cap Screw although the dome shaped head is wider and has a lower profile than a Socket Cap Screw, presenting an aesthetic appearance to an assembly.

- BZP Steel
- Threaded in accordance with ISO 7380 standard
- 10.9 grade High Tensile Steel
- Used for applications with limited space in high tensile applications
- Suitable for light fastening applications in most food, facilities maintenance and electronic & domestic applications.
- Typical applications include; Machine tooling, Securing guards and covers, Securing ornamental, fixtures, plus many more engineering applications
- Requires a Hex key / Allen key

Please view our full range listing below for all BZP Steel Hexagon Socket Button Head Screws

Nominal Lengths above the stepped line Full Thread

Nominal Lengths below the stepped line, the thread length at the discretion of the manufacturer, may be between a minimum of 2d+12mm and a maximum which is within 2 P of the head.

-ISO 7380	
	Neither standard is intended for high strength applications. The only purpose of having them produced in property class 10.8 or 12.9 is to increase the wear resistance of the cooket drive.
ANSI B 18.3.4M	property date 10.8 of 12.8 is to indicate the wear resistance of the could arre.
