CAL Temperature Controllers

Auto-tuning P.I.D. Controllers with RS232/485 Communication, Charting and Logging Software

The CAL range of temperature controllers are designed to be easy to use, low cost and reliable in the most demanding applications, including plastics, packaging, drying, dying and furnaces and laboratory equipment.

Integrated auto-tune makes P.I.D. control simple and efficient, while the unique dAC function minimises overshoot problems associated with conventional P.I.D. Controllers.
